

Model 2KGW

The Edward Segal, Inc. **Model 2KGW** is a state-of-the-art, fully automatic, grommet and washer attaching machine. This machine is built around a newly designed frame that requires less space and is much lighter than previous generations of machines. The 2KGW is a fully automatic machine that feeds both the grommet and washer, punches the hole in the material and attaches the grommet and washer, all in a single cycle. This machine has been specifically engineered for light to medium duty applications.

Features

- Flywheel powered and cam actuated to ensure consistent settings
- Advanced cutting technology to punch a hole in multi-layered materials
- Compensator to allow for a nominal variance in material thickness
- Stripper plate to lift grommet and washer setting off the pilot of the anvil
- Available for grommet & washer sizes No. 00 to No. 2 (including Telescopic, Tooth and Spur)
- Simplistic controls, operator and service friendly

Standard Equipment

- Heavy Duty Machine Stand with 24" x 24" Table Top
- Laser Target Light
- Adjustable Spacing Gauge

Optional Equipment

- Mobile Machine Stand with Casters (as pictured)
- Dual Palm Buttons

(Shown with Optional Mobile Stand)
