

The **Model 3P6** is a portable pneumatic press specifically designed for grommet applications. This powerful, compact press is capable of punching a hole in a wide range of materials and setting a grommet and washer, all in a single cycle. The 3P6 is available for grommets up to No. 4, Plain and Rolled Rim, and also accommodates Snap Fasteners. Setting tools for the 3P6 are interchangeable, and are threaded in-place to facilitate fast conversions. The 3P6 is built on a sturdy welded frame and designed for safe operation, portability and ease of use.

The 3P6 is designed to be portable or bench mounted. Several alternative configurations allow the 3P6 to be used in the most productive manner including: (a) Pedestal Stand with optional foot pedal; (b) Mobile Base for floor work; and (c) Tool Rack with Storage Bins.

### 3P6 Benefits

- ◆ **Ergonomic** — No physical exertion is required to punch the hole or set grommets. Operators can work at the machine for extended periods of time without getting tired.
- ◆ **Lower Cost Grommets** — Since the 3P6 punches the hole Sheet Metal Grommets can be used. These are less expensive than Self Piercing Grommets.
- ◆ **Safety** — The integrated front guard must be lowered to cycle the machine and can be adjusted for products of varying thicknesses.

When extra force is needed for oversized grommets or heavier materials, the 3P6-X should be considered. The X version is a larger version of the 3P6.

### 3P6 Specifications

<u>Base</u>		<u>On Stand</u>
22	Weight (lbs)	92
17x4x11	Dimensions (1)(2)	39x18x19
4- <sup>3</sup> / <sub>4</sub>	Working Height(1)	42- <sup>3</sup> / <sub>4</sub>
33	Crated Weight (lbs)	111
30x17x17 (cardboard box)	Crated Dimensions (1)(3)	22x22x66 (pallet)
100 psi	Pneumatic Requirements	3.5 cfm

#### Footnotes

- 1) Inches; height x width x depth
- 2) Base alone ships UPS or Fedex.
- 3) On Stands ships LTL, CL 92.5
